Shyam Century Ferrous Limited | Annual Report 2019-20

Forward looking statement

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions.

This report and other statements - written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

What you need to know about Shyam Century Ferrous Limited

Background

Incorporated in 2011, Shyam Century Ferrous Limited is one of the prominent ferro alloys manufacturers in North-Eastern India. The Company is headed by professionals who have years of experience and are committed to drive the Company's growth to the next level.

Presence

The Company is headquartered in Lumshnong, Meghalaya, and has a manufacturing unit in Byrnihat, Meghalaya. The Company's strategic presence in North East provides easy access to abundant raw materials like coal, Lamcoke and quartz in proximate locations.

Products

The Company is engaged in the production of Ferro Silicon with annual manufacturing capacity of 21,600 MT. It also has a captive power generation capacity of around 14 MW and has facilities to produce silico manganese and other varieties of ferro alloys by using the same infrastructure.

Listing

The shares of the Company are listed on the National Stock Exchange of India Limited and BSE Limited.

The Director's message

Overview

The prevailing period is one of the most uncertain in living memory. The global slowdown of 2019 was complemented by the outbreak of the COVID-19 pandemic starting with the calendar year of 2020.

The Indian economy slowed from 6.1% in FY 18-19 to 4.2% in FY 19-20 and 3.1% in the last quarter of the year under review. This sharp slowdown in economic growth was coupled with a surge in inflation. The Indian rupee was one of the worst performers among Asian peers.

During the last week of the financial year under review, a national lockdown was imposed to fight the spread of COVID-19, which affected the recovery of the Indian economy in FY 20-21.

Impact of COVID-19 pandemic

The pandemic is affecting how humankind will live. The market outlook is dependent on the discovery of the vaccine and at the moment of writing, there is a premium on the ability of companies like ours to manage their way through the downturn without significant impact.

The management of your Company is aware of this priority. The performance of your Company could be largely dependent on market conditions during the current financial year even as there are concerted initiatives to minimise impact through various proprietary initiatives. Our objective is to remain one of the last players standing and emerge as one of the earliest to recover when consumer sentiment revives.

We have always grown our Company around a sense of discipline. Our responsiveness to the prevailing environment is the result of what we have consistently

been: questioning every cost, focusing on liquidity and prioritising business sustainability.

Performance overview

Global crude steel production reached 1,869.9 Mn tonnes in 2019, up 3.4% compared to 2018. India's crude steel production for FY 19-20 was 108.50 Mn tonnes, up 1.89%. India replaced Japan as the world's second-largest steel producing country, while retaining its position as the third-largest finished steel consumer. India possessed an installed capacity of 142.24 Mn tonnes in FY 18-19, whereas production in FY 19-20 was 101.3 Mn tonnes compared to 131.57 Mn tonnes in FY 18-19.

The Indian automobile industry, which accounts for a ~7% share of the country's GDP, is at the cusp of a transformation. The sector encountered a weak FY 19-20 following a transition to the BS-VI standard and shared mobility that affected new offtake.

Your Company reported ₹89.14 Crore of revenues and ₹0.02 Crore

18.72

(₹ Crore), Operating profit margin in last quarter, FY 19-20

11,110

(Metric tonnes) Production of ferro silicon, FY 19-20

The Company did well to report a gradual improvement in performance, revenues peaking at ₹33.45 Crore in the last quarter. What was creditable is that the operating margin of the fourth quarter of 18.72% was the highest through the year under review.

of profit after taxes in FY 19-20, a decline in both numbers when compared with the previous year. This transpired as the ferro alloys market remained weak on account of a sluggish downstream sector (steel). Ferro alloy realisations declined more than 45% from peak, affecting our performance. The Company did well to report a gradual improvement in performance, revenues peaking at ₹33.45 Crore in the last quarter. What was creditable is that the operating margin of the fourth quarter of 18.72% was the highest through the year under review. We are cautiously optimistic that the performance of the current financial year could improve in light of an improvement in sales realisations and probable revival of the steel industry.

The growth of the automobile sector, one of the largest steel consumers, slowed during the year under review with off take declining virtually month-on-month. A continuing weakness

in the country's real estate sector following RERA implementation and demonetisation, continued to affect the offtake of TMT and structurals.

Against a backdrop of these economic and sectoral realities, the Company possesses the resilience to sustain its profitability on account of positive cash flows, high product quality, adequate capacity and cost austerity. Your Company produced 11,110 metric tonnes of ferro silicon during the year under review, compared to 15,219 tonnes in FY 18-19. Your Company optimised costs and strengthened processes. Even as the performance weakened, your Company remained attractively placed to capitalise on India's long-term prospects.

Outlook

During the first quarter of the current financial year, revenues increased over the corresponding period of the previous year with a turnaround in bottomline,

strengthening the prospects during the current financial year.

What provides optimism in this challenging scenario is our long-term competitiveness. The demand for steel could rise whenever there is an improvement in the country's real estate and infrastructure sector. With the government continuing to focus on the long-term development of national infrastructure through relevant policies there is a possibility of a trickle-down in the form superior steel and ferro alloy offtake.

When the country's economy revives, Shyam Century Ferrous Limited is expected to ride the rebound and report an attractive performance.

FERRO ALLOY BUSINESS - INDUSTRY AT A GLANCE

Ferroalloys have been developed to improve the properties of steels and alloys by introducing specific alloying elements in desirable quantities in the most feasible technical and economic way. Ferroalloys plays major role in Steel Production and industrial development.

Ferrosilicon (FeSi) is an alloy of iron and silicon with a very variable silicon content varies between 10% and 90%. The main advantage of FeSi is its deoxidizing effect (i.e., it reduces metals from their oxides) but it also helps to prevent the loss of carbon. The FeSi is screened into different size grades for further use as per the size of the furnace or usage required by the customers.

The highest consumption of FeSi is in the Stainless Steel sector (SS) followed by Mild Steel (MS) sector. With the ongoing Covid-19 situation in the world including India most of the SS producers are in a decline mode or in a challenging phase. Most of the SS producers are running at a minimum capacity as they have a huge Finished Goods (Fg) inventory piled up with negligible demand from their customers. In view of lockdown announced across the country the overall growth of the stainless steel industry, like other industries, are bound to witness contraction in FY21.

Indian Ferro Silicon imports decreased by 59% in Jan'20 on M-o-M basis. Bhutan was the largest exporter of Ferro Silicon for India. Indian imports from Bhutan alone were accounted for 54% in Jan'20. China was the next biggest exporters of Ferro Silicon for India with 23% of imports from China. The import data itself is an indication for the demand of FeSi in the country.

Commodity prices including FeSi have always shown significant volatility that reflects temporary shortage or surplus conditions in the markets. Trade in speculative financial products often aggravates commodity price volatility in a way that cannot be explained by market fundamentals. Exactly how closely commodity prices reflect market shortage or surplus conditions is therefore sometimes called into question.

Steel making materials supply chains have a high exposure to disruptions such as adverse weather conditions and accidents due to the concentrated supply structure number, geographical location of mining areas, capacity, location of ports and railways dedicated to exports of iron ore and metallurgical coal.

Iron ore and metallurgical coal quality has shown a significant deterioration in quality during the 2000s. This has put a huge pressure on the efficiency and the environmental performance of the global steel industry's raw materials processing operations. However, the global steel industry has managed to meet ever more stringent environmental standards thanks to the development of new technology and techniques. April'2020 was very down, however from May onwards, we have started witnessing incipient signs of recovery. In June, we expect double the volume of May. We estimated that demand for stainless steel will recover from the third quarter of the current fiscal and that we will be able to touch full capacity utilization level by the end of September 2020. The reason for a muted Q4 FY20 can be ascribed to an interplay of several factors. The overall GDP growth in the quarter slowed down on account of weak market sentiments owing to the outbreak of COVID-19.

During the year under review your Company continued to focus on its fundamental strength i.e., productivity and quality. Strong emphasis were given on utilization of internal efficiencies together with an improvement in the sales mix which enabled your Company to withstand inflationary pressures on costs and profitability.

During the year under review, your Company has sold 11,568 MT of Ferro Silicon as against 14,580 MT recorded in previous year. Fall in production of Ferro Silicon was mainly due to fall in prices of Ferro Silicon in the market. However, prices started improving from end February, 2020. While your Company constantly strives to increase stakeholder's value, emphasis continues to be on delivering value to customers and strengthening processes while driving sustainable practices, resulting into expanding customer base.

POWER BUSINESS

During the year under review, your Company generated NIL KWH unit recorded in previous year as compared to 347 Lakhs KWH unit recorded in previous year which was captively consumed by the Company.

Further, M/s. Meghalaya Power Limited, an Associate Company has generated 161 Lakhs KWH units as compared to 1,701 Lakhs KWH units recorded in the previous year. During the Financial year 2019-20, the associate Company has posted PBT of ₹373.14 Lakhs and PAT of ₹359.37 Lakhs as against ₹1,511.10 Lakhs and ₹1,269.16 Lakhs respectively recorded in the previous financial year.

OPPORTUNITIES & THREATS, RISKS AND CONCERNS

Performance of the Company depends on the continued demand of our products in the steel and stainless steel industry. Government's initiatives to liberalise industrial policy, approval of National Steel policy and policy on 'Make in India' and other infrastructural initiatives taken for the entire country is expected to have positive impact of the ferro alloy industry and thereby boosting demand for the Company's product. Global stainless steel production growth is expected to 2.6% p.a. over average upto 2021.

However, challenge faced by the domestic industry due to fall in demand for lock down announced in the fear of Covid-19, overall fall in global demand, short availability of raw materials and very high power cost comparative with other countries, lack of infrastructural facilities for easy transportation of raw materials from mines to the location affects the sector. Policy of the Government, regulatory changes and force majeure events may also affect the domestic industry.

Despite these threats, Indian Ferro alloy industry has growth prospect due to rapid industrialization, urbanization and other infrastructural development. Various initiatives of the Government addressing their concern to help the industry and resolve the problems likely to have positive impact on the development of the industry. Further relaxations that may announce by the Government to boost the metal industry will have positive impact.

The Company has evolved a risk management framework to identify, assess and mitigate the key risk factors of the business. The Board of the Company is kept informed about the risk management of the Company.

PERFORMANCE AND OPERATIONS REVIEW

During the year under review, on a full year basis, the Company has posted total revenue of ₹8,913.93 Lakhs and Profit before Tax of ₹(12.08) Lakhs in FY 2019-20 as against ₹13,443.78 Lakhs and ₹1,479.38 Lakhs respectively during the previous financial year. Your Company produced 11,110 MT of Ferro Silicon during the year under review as against 15,219 MT in the Financial Year 2018-19.

SHARE CAPITAL

The paid up Equity Capital as on March 31, 2020 was ₹2,221.73 Lakhs. During the year under review, the Company has neither issued any shares with differential voting rights nor granted stock options or sweat equity shares.

SIGNIFICANT MATERIAL ORDERS PASSED BY THE COURTS OR REGULATORS

The Director of Mineral resources, Meghalaya, Shillong vide its Demand notice dated 19th February, 2020 raised a demand against the Company for payment of royalty, MEPRF, VAT/GST for an amount of ₹17.39 crores in pursuance to the National Green Tribunal (NGT)

order dated 17.01.2020 passed in O.A. No. 110(TCH)/2012 against the Company and other Cement and Power Companies in Meghalaya. By the said order NGT has accepted the recommendations of the 5th Interim Report of the Independent Committee set up by NGT for restoration of Environment and rehabilitation of victims, which has suggested imposition of penalty on Cement Companies and Thermal Power Plants in Meghalaya for alleged illegal coal procurement.

The Company have not purchased any illegal coal and has complied with all disclosure requirements of the various Government Departments. The Report of NGT Committee has been founded on the basis of assumptions and views of the Committee and not on hard facts. The views of Independent Committee cannot be a substitute of hard facts or evidences necessary to form a decision culminating in recommendations. Further to note that neither show-cause was issued nor opportunity of hearing was given to the Company before submitting the Interim reports by the Independent Committee to NGT. NGT has also not served any notice on the Company before passing the impugned order dated 17.01.2020 in clear violation of principles of natural justice.

The Company backed by the legal opinions, believes that it has a good case in the matter as the said order was issued on the basis of certain hypothetical assumptions and without giving any opportunity of being heard to the Company. Therefore, against the said Demand Notice the Company is preferring an appeal before the appropriate forum, and based on the legal opinions obtained by the Company there is every likelihood that the Demand Notice dated 19.02.2020 will be set aside and accordingly, no provisions has been made in the accounts and the same has been shown under contingent liability. (Refer Note no. 45 of Notes to Accounts).

Other than the aforesaid, there have been no significant and material orders passed by the Courts/ Regulators impacting the going concern status and future operations of the Company.

Independent Auditors' Report

To the Members of
Shyam Century Ferrous Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Shyam Century Ferrous Limited** (the "Company"), which comprise the Standalone Balance Sheet as at 31st March, 2020, and the Standalone Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and the financial performance and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent

of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw your attention to Note No. 49 to the standalone financial statement which explains the uncertainties and the management's assessment of the financial impact due to the lock-downs and other restrictions and conditions related to the COVID-19 pandemic situation, for which a definitive assessment of the impact is highly dependent upon circumstances/development as they evolve in the subsequent period.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report:

Sl. No.	Key Audit Matters	Auditor's Response
1	<p>Revenue Recognition</p> <p>(Refer Note No. 28 to the standalone financial statements and Note No. 1.3 (A) of the significant accounting policies of Standalone Financial Statements).</p> <p>Revenue is recognised when the control of the products has transferred and dispatched to customer. Delivery occurs when the product has been dispatched to the specific location and the risk of obsolescence / loss has been transferred and there is no unfulfilled obligation that could affect the buyer's acceptance of the product as per the terms of the contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.</p> <p>Revenue is recognised based on the price and as per terms specified in the contracts. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.</p> <p>There is a significant risk of misstatement due to risk related to inappropriate recognition of the revenue and hence this was determined to be a key audit matter.</p>	<p>Our audit procedures to assess the appropriateness of revenue recognized included:</p> <ul style="list-style-type: none"> Obtaining an understanding of and assessing the design, implementation and operating effectiveness of the Company's key internal controls over the revenue recognition process. Obtaining and inspecting, on a sample basis, individual sales transaction and traced to sales invoices, sales order and other related documents as well as credit notes issued after the year end to determine whether these were recorded appropriately. Examination of significant contracts entered into close to year end to ensure revenue recognition is made in the correct period. <p>Our testing as described above showed that revenue has been recorded in accordance with the terms of applicable contracts and accounting policy in this area.</p>

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from

material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

Due to COVID-19 pandemic and the consequential nationwide lockdown announced by the Central and State Government including the travel restrictions, maintenance of social distancing etc., the audit team has performed the audit from remote location, on the basis of data, scan copies, documents, management estimates, assumptions, certificates and other information supplied electronically by the management on online platform. We have relied on Management assurance of the authenticity, completeness and accuracy of these records electronically submitted to us. Further, our attendance at the physical inventory verification done by the management was impracticable under the current lock-down restrictions imposed by the government and we have therefore, relied on the related alternative audit procedures to audit the existence of inventory as per the guidance provided in SA 501 "Audit Evidence - Specific Consideration for Selected Items" and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on these Financial Statements.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (hereinafter referred to as "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanation given to us, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- (a) Without prejudice to the situation described under "Other matter" section, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder;
- (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B";
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditors Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
 - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - c. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2020.

Annexure - B to the Independent Auditor's Report of even date on the Standalone Financial Statements of Shyam Century Ferrous Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of SHYAM CENTURY FERROUS LIMITED ("the Company") as at March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("The Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, read with impact of Covid- 19 stated in Emphasis of Matter paragraph in Independent Auditor's Report, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Standalone Financial Statements for the year ended 31st March, 2020

Corporate Information

Shyam Century Ferrous Limited (the Company) is a public company domiciled in India and incorporated on 12.04.2011 under the provisions of the Companies Act, 1956. Its shares are listed on National Stock Exchange and Bombay Stock Exchange in India. The Company is engaged in manufacturing of Ferro Alloys and generation of Power. The manufacturing unit is located at Byrnihat, Meghalaya. The company is selling its product across India.

1. Accounting Policies

1.1 Basis of Preparation

(i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

The Company has adopted all the applicable Ind AS standards effective 1st April, 2017 and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with April, 2017 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

The accounting policies are consistently followed by the Company and changes in accounting policy are separately disclosed.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following:

- defined benefit plans – plan assets measured at fair value
- certain financial assets that are measured at fair value

(iii) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

(iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

1.2 Use of Estimates

The preparation of financial statements is in conformity with generally accepted accounting principles which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

1.3 (A) Revenue Recognition

Sales are recognised when control of the products has transferred, domestic sales are accounted when the products are dispatched to the customers and export sales are accounted on the basis of bill of export/bill of lading. Delivery occurs when the product has been dispatched to the specific location and the risk of obsolescence / loss has been transferred and there is no unfulfilled obligation that could affect the buyer's acceptance of the product as per the terms of the contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.

Revenue is recognised based on the price and as per terms specified in the contracts. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

A receivable is recognised when the goods are dispatched as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(B) Other Income

Interest income is recognised using the effective interest rate (EIR) method.

Dividend income on investments is recognised when the right to receive dividend is established.

Notes to Standalone Financial Statements (contd.)

1.4 Property, plant and equipment

Property, plant and equipment are stated at their cost of acquisition, installation or construction (net of any recoverable amount, wherever applicable) less accumulated depreciation, amortization and impairment losses if any, except freehold land which is carried at cost. Cost comprises the purchase price, installation and attributable cost of bringing the asset to working condition for its intended use.

Capital Work in Progress

Capital work in Progress is carried at cost comprising direct cost and includes any directly attributable cost incurred during construction period.

Expenditure during construction period

In case of new projects and substantial expansion of existing units, expenditure incurred including trial production expenses net of revenue earned, and attributable interest and financing cost, prior to commencement of commercial production are capitalized.

Depreciation

Depreciation on property, plant and equipment is provided on written down value method in accordance with the provisions of Schedule II to the Companies Act, 2013 and considering the useful lives for computing depreciation specified in Part 'C', thereof'. Depreciation is provided on components that have homogenous useful lives by using the WDV method so as to depreciate the initial cost down to the residual value over the estimated useful lives. Useful lives, components and residual amounts are reviewed annually.

In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

1.5 Inventories

Raw Materials and stores and spares are valued at lower of cost and net realizable value. However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Work in progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials & labour and a part of manufacturing overheads based on normal operating capacity.

Cost of Inventories excluding finished goods and work-in-progress is computed on FIFO basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

1.6 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.7 Investments and other financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost

The classification depends on the company's business model for managing the financial assets and the contractual terms of cash flows.

Measurement

At initial recognition, the company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. The company classifies its debt instruments into the following categories:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method.

Notes to Standalone Financial Statements (contd.)

- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collections of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss (FVTPL) :** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments

The company subsequently measures all equity investments (except subsidiary, associate and joint venture) at fair value through profit or loss. However where the company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss.

Impairment of financial assets

The company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Derecognition of financial assets

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset, or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset.

1.8 Financial liabilities

Initial recognition and measurement

The company recognises all the financial liabilities on initial recognition at fair value minus, in the case of a financial liability not at fair value through Profit or Loss, transaction costs that are directly attributable to the acquisition or issue of the financial liability.

The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

All the financial liabilities are classified as subsequently measured at amortised cost, except for those measured at fair value through profit or loss.

De-recognition of financial liabilities

The Company de-recognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

1.9 Government Grants and subsidies

Government grants / subsidies are recognized when there is reasonable certainty that the same will be received. Revenue grants, if any granted by way of recoupment / reimbursement of any item of expenditure are recognized in the Statement of Profit and Loss by way of deduction from related item of expenses. Grants related to assets which are recognized in the Statement of Financial Position as deferred income, are recognized to the Statement of Profit and Loss on a systematic basis over the useful life of the related assets by netting off with the related expense.

1.10 Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

Notes to Standalone Financial Statements (contd.)

(ii) Defined Contribution Plan

Retirement benefit in the form of Provident Fund is a defined contribution scheme and is charged to the Statement of Profit and Loss for the year when the contributions to the respective funds are due.

(iii) Defined Benefit Plan

Gratuity liability, being a defined benefit obligation, is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

(iv) Other Long-term benefits

Short term compensated absences are provided for based on estimates. Long term compensated absences are provided for based on actuarial valuation which is done as per projected unit credit method at the end of each financial year.

1.11 Earnings per Share

Basic Earnings per Share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deductible preference dividend and attributable taxes) by the weighted number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit or loss for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

1.12 Borrowing Costs

Borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset is capitalized as part of cost of such asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which they are incurred. Borrowing cost includes exchange differences arising from relevant foreign currency borrowings to the extent that they are regarded as an adjustment to the interest cost.

1.13 Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1.14 Taxation

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Notes to Standalone Financial Statements (contd.)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The deferred tax in respect of temporary differences which originate during the tax holiday period and is likely to reverse during the tax holiday period, is not recognized to the extent income is subject to deduction during the tax holiday period as per the requirements of the Income Tax Act, 1961.

1.15 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

1.16 Cash and Cash equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash in hand, demand deposits with Banks and other short-term highly liquid investments / deposits with an original maturity of three months or less.

1.17 Provisions and Contingencies

A Provision is recognized for a present obligation as a result of past events if it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense. Liabilities which are material and whose future outcome cannot be ascertained with reasonable certainty are treated as contingent and disclosed by way of notes to the accounts. Contingent assets are also disclosed by way of notes to the accounts.

1.18 Foreign Currency Transactions and Balances

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian National Rupee (INR), which is Shyam Century Ferrous Limited's functional and presentation currency.

Transactions in foreign currencies entered into by the Company are accounted at the exchanges rates prevailing on the date of the transactions. Exchange differences arising on settlement /restatement of short-term foreign currency monetary assets and liabilities of the company are recognized as income or expenses in the Statement of Profit and Loss. All foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income or other expenses.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

1.19 Borrowing

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the Statement of Financial Position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

1.20 Impairment of non-financial assets

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. An impairment loss will be recognized wherever the carrying amount of an asset exceeds its recoverable amount.

Notes to Standalone Financial Statements (contd.)

The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognized impairment loss is further provided or reversed depending on changes in circumstances.

1.21 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

1.22 Intangible Asset

An intangible asset is recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. The depreciable amount of an intangible asset is allocated over its estimated useful life. Expenditure on purchased software and IT related expenditure are written off over a period of three years.

1.23 Lease

As a Lessee:

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are initially measured at cost. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, an estimate of costs to be incurred in dismantling and removing or restoring the underlying asset and lease payments made at or before the commencement date less any lease incentives received. After the commencement date, the Right of use assets are measured applying the Cost model. They are subsequently measured at cost, less any accumulated depreciation, adjustments for any remeasurement of the lease liabilities and impairment losses. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

At the commencement date of the lease, the company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

As a Lessor:

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. Operating lease payments are recognised as an income in the statement of profit and loss on a straight-line basis over the lease term, unless the receipt from lessee is structured to increase in line with expected general inflation and compensate for the lessor's expected inflation cost increase.

1.24 Research and Development Expenditure

Revenue expenditure is charged to the Statement of Profit and Loss and capital expenditure is added to the cost of property, plant and equipment in the year in which they are incurred.

1.25 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

Notes to Standalone Financial Statements (contd.)

Note 2 : Disclosure on Transition :

Adoption of a new accounting standard on Leases Ind AS 116

The Company has adopted Ind AS 116 'Leases' with effect from April 1, 2019, as notified by the Ministry of Corporate Affairs (MCA) in the Companies (Indian Accounting Standard) Amendment Rules, 2019 using modified retrospective method. Accordingly, the comparatives have not been retrospectively adjusted.

On transition, the adoption of this standard resulted in recognition of Right of Use Asset of ₹ 48.32 Lakhs and lease liability of ₹ 48.32 Lakhs as at 1st April, 2019. At the year end the cumulative impact of applying this standard resulted in decrease in profit of ₹ 1.63 Lakhs, the result of which did not have any material impact on the profit before tax, profit for the year and earning per share for the year ended 31st March, 2020.

Ind AS 116 will result in an increase in cash inflows from operating activities and an decrease in cash outflows from financing activities on account of lease payments. The lease liabilities were discounted using the incremental borrowing rate of the company as at 1st April, 2019. The Weighted Average incremental borrowing rate applied to lease liability as at 1st April, 2019 is 9.00%

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. In statement of profit and loss for the current year, the nature of expenses in respect of operating leases has changed from lease rent in previous year to depreciation cost for the ROU asset and finance cost for interest accrued on lease liability.

In the context of initial application, the company has exercised the option not to apply the new recognition requirements to short-term leases and to leases of low-value asset.

Following are the changes in the carrying value of right of use assets for the year ended 31st March, 2020:

Particulars	(₹ in Lakhs)
	Amount
Balance as at April 1, 2019	-
Recognition on account of adoption of Ind AS 116	48.32
Additions	-
Depreciation	4.03
Balance as at March 31, 2020	44.30

The depreciation expense of ₹ 4.03 Lakhs on ROU assets is included under depreciation and amortization expenses in the Statement of Profit and Loss.

The following is the movement in lease liabilities during the year ended 31st March, 2020 :

Particulars	(₹ in Lakhs)
	Amount
Balance as at April 1, 2019	-
Recognition on account of adoption of Ind AS 116	48.32
Interest expense during the period	4.35
Payment of lease liabilities	6.75
Balance as at March 31, 2020	45.93

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

(iv) Significant estimates: actuarial assumptions

The significant actuarial assumptions were as follows:

Particulars	31 March, 2020	31 March, 2019
Discount rate	7.00%	7.70%
Salary growth rate	6.00%	6.00%
Withdrawal rate	1% to 8%	1% to 8%
Mortality rate	IALM (2006-08) Table	IALM (2006-08) Table

Notes to Standalone Financial Statements (contd.)

Note: 38 - Employees benefit obligations (Contd.)

(v) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(₹ in Lakhs)

Particulars	Impact on defined benefit obligation			
	31 March, 2020		31 March, 2019	
	Increase	Decrease	Increase	Decrease
Discount rate (-/+ 1%)	51.30	61.59	65.78	77.94
Salary growth rate (-/+ 1%)	61.77	51.08	78.14	65.54
Withdrawal rate (-/+ 1%)	56.40	55.67	72.15	70.53

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(vi) Risk exposure

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest risk:

A decrease in the interest rate on plan assets will increase the plan liability.

Life expectancy:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Salary growth risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan liability.

(vii) Defined benefit liability and employer contributions

Expected contributions to post-employment benefits plans for the year ending 31st March 2021 are ₹ 19.97 Lakhs.

The weighted average duration of the defined benefit obligation is 5.29 years (31st March 2019 : 4.92 years). The expected maturity analysis of undiscounted gratuity is as follows:

(₹ in Lakhs)

Particulars	Less than a year	Between 2- 5 years	Over 5 years

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments is determined using discounted cash flow analysis.

(iii) Fair value of financial assets and liabilities measured at amortised cost

(₹ in Lakhs)

Particulars	31 March, 2020		31 March, 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Security Deposits	56.21	56.21	55.71	55.71
Total financial assets	56.21	56.21	55.71	55.71
Financial liabilities				
Borrowings	190.55	190.55	258.72	258.72
Lease Liability	43.31	43.31	-	-
Total financial liabilities	233.86	233.86	258.72	258.72

The carrying amounts of all other financial assets and financial liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk. The carrying amounts of other borrowings with floating rate of interest are considered to be close to the fair value.

The fair values for financial instruments were calculated based on cash flows discounted using current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions see (ii) above.

Notes to Standalone Financial Statements (contd.)

Note: 41 - Capital management

(a) Risk management

The company's objectives when managing capital are to:

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and
- maintain an optimal capital structure to reduce the cost of capital

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The amount mentioned under total equity in balance sheet is considered as Capital.

Note: 42 - Financial risk management

The Company's activities are exposed to a variety of financial risks: credit risk, liquidity risk and market risk (i.e. foreign currency risk, interest rate risk and price risk).

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets measured at amortised cost.	Aging analysis	Diversification of customer base
Liquidity risk	Financial liabilities that are settled by delivering cash or another financial asset.	Cash flow forecasts	Projecting cash flows and considering the level of liquid assets necessary to meet the liabilities
Market risk – interest rate	Long-term borrowings at fixed rates	Sensitivity analysis	Portfolio of loan contains fixed interest loans from financial institutions

(A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally carrying 30 days credit terms. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically. The ageing of trade receivables as of balance sheet date is given below. The age analysis have been considered from the due date:

(₹ in Lakhs)

Particulars	Not due	Less than 6 months	6 months - 1 year	> 1 year	Total
Trade receivable as on 31st March, 2020	925.59	2,777.25	33.16	108.12	3,844.12
Trade receivable as on 31st March, 2019	1,473.79	1,189.59	4.28	124.01	2,791.67

ii) Financial instruments and deposits

Credit risk from balances with banks and financial institutions is managed by the Company's finance department. For banks and financial institutions, only high rated banks/institutions are accepted.

Financial assets are considered to be of good quality and there is no significant credit risk.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31st March 2020 and 31st March 2019 is the carrying amounts as illustrated in Note No. 40.

(B) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the underlying business, the Company maintains sufficient cash and liquid investments available to meet its obligation.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The management also considers the cash flows projection and level of liquid assets necessary to meet these on a regular basis. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

Notes to Standalone Financial Statements (contd.)

Note: 42 - Financial risk management (Contd.)

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in Lakhs)

Particulars	31 March, 2020	31 March, 2019
Floating Rate		
- Expiring within one year (bank overdraft and other facilities)	2,995.15	2,918.69
	2,995.15	2,918.69

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time in INR.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Contractual maturities of financial liabilities - 31st March, 2020

Total financial liabilities	834.85	85.58	124.45	-	1,044.88

(C) Market risk

(i) Foreign currency risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Further foreign exchange risk also arises from future cash flow against foreign currency loan. The risk is measured through a forecast of highly probable foreign currency cash flows.

Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period expressed in ₹ are as follows:-

(₹ in Lakhs)

Particulars	31 March, 2020	31 March, 2019
Financial assets	-	-
Financial liabilities	-	10.38
Net exposure to foreign currency risk	-	10.38

Sensitivity

The sensitivity of profit and loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments

* Holding all other variables constant

Notes to Standalone Financial Statements (contd.)

Note: 42 - Financial risk management (Contd.)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During 31st March 2020, the Company's borrowings at variable rate were mainly denominated in INR.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(a) Interest rate risk exposure

On Financial Liabilities:

The exposure of the Company's financial liabilities to interest rate risk is as follows:

(₹ in Lakhs)

Particulars	31 March, 2020	31 March, 2019
Variable rate borrowings	4.85	81.31
Fixed rate borrowings	190.55	258.72
Total borrowings	195.40	340.03

(b) Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates as below:

(₹ in Lakhs)

Particulars	Impact on profit before tax	
	31 March, 2020	31 March, 2019
Interest expense rates – increase by 50 basis points (2018: 50 bps)*	(0.02)	(0.41)
Interest expense rates – decrease by 50 basis points (2018: 50 bps)*	0.02	0.41

(i)	Claims against the company not acknowledged as debts- Excise / VAT / Income Tax matters etc.	2,710.88	859.85

- (a) Supreme Court vide its Judgement dated 22.04.2020 in the matter of M/s V.V.F Limited & others versus the Union of India has reversed the Judgement of the Hon'ble Supreme Court in the matter of M/s V.V.F Limited & others Vs the Union of India based on which Shillong Bench and Guwahati Bench of Hon'ble High Court of Guwahati has passed the order in favour of the Company and Company has claimed refund of 50% of differential Excise duty against furnishing of surety bond. The Company is preferring an appeal before the appropriate Forum against the above judgement. It is to be noted that misuse of benefit granted by some unscrupulous assessee cannot be made a ground to deny the benefits to genuine manufacturers and cannot be termed as in public interest. It can also not be said that the subsequent notifications are only clarificatory in nature and are not hit by doctrine of promissory estoppel as denial of promised benefits will hurt the genuine manufacturer who have changed their position on the basis of promise by the state. Based on the legal advice obtained by the Company from External Counsel as well as its own assessment there is every likelihood of reversal of the said judgement and appeal will be allowed and hence no reversal of income amounting to ₹ 1,720.30 Lakhs which was previously booked in the books of accounts is required.
- (b) On the basis of the direction of the High Court of Meghalaya dated 30.08.2018 following the decision of the Supreme Court dated 10.11.2017 passed in SRD Nutrients Pvt. Ltd. Vs. Commissioner of Central Excise, Guwahati, Company has received a refund of Education Cess and Secondary & Higher Education Cess amounting to ₹ 112.04 Lakhs in previous years. However, the Apex court vide its order dated 06.12.2019 have taken a contrary view in the matter of M/s Unicorn Industries Vs Union of India and Others. Based on the later judgement a demand letter was raised by the department to refund back the amount granted. As the order dated 30.08.2018, has attained its finality and the refund was granted accordingly, the Company has preferred an appeal before the appropriate Forum against the above demand letter. Meghalaya High Court has stayed the said demand vide its order dated 16.06.2020. Based on the legal advice obtained by the Company from External Counsel as well as its own assessment there is every likelihood that the said demand will be quashed and therefore no provision have been taken in the books of account.
- (c) In respect of demand notice dated 19.02.2020 received by the Company from Director of Mineral Resources, Meghalaya, for payment of royalty, MEPRF, VAT/GST for ₹1,738.99 Lakhs in pursuance to the National Green Tribunal (NGT) order dated 17.01.2020 passed in O.A. No. 110(TCH)/2012 for alleged illegal coal procurement. By passing the said order NGT has accepted the Recommendation of the 5th Interim Report of the Independent Committee set up by NGT, which has suggested imposition of penalty on Cement Companies and Thermal Power Plants in Meghalaya.

The Company has not purchased any illegal coal and has complied with all disclosure requirements of the various Government Departments. The Report of NGT Committee has been founded on the basis of assumptions and views of the Committee and not on hard facts. Further to note that the Company has neither been issued a show-cause nor any opportunity of being heard was given to the Company before submitting the Interim reports by the Independent Committee to NGT. Even NGT has not served any notice on the Company before passing the impugned order dated 17.01.2020 which is clear violation of principles of natural justice.

The Company backed by the legal opinions, believes that it has a good case in the matter as the said order was issued based on certain hypothetical assumptions and views and not on hard facts. No opportunity of being heard was provided to the Company either by NGT committee or by NGT itself which passed order without going into the merits & facts and accepted the recommendations of 5th Internal Report. Therefore, there is every likelihood of the Demand Notice being set aside. The Company is preferring an appeal before appropriate forum and accordingly, no provisions has been made in the accounts.

Independent Auditors' Report

To the Members of
Shyam Century Ferrous Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Shyam Century Ferrous Limited** ("the Company"), and its associate (collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2020, the consolidated profit, consolidated other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in

the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw your attention to Note No. 49 to the consolidated financial statement which explains the uncertainties and the management's assessment of the financial impact due to the lock-downs and other restrictions and conditions related to the COVID-19 pandemic situation, for which a definitive assessment of the impact is highly dependent upon circumstances/development as they evolve in the subsequent period.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report:

Sl. No.	Key Audit Matters	Auditor's Response
1	<p>Revenue Recognition</p> <p>(Refer Note No. 28 to the Consolidated financial statements and Note No. 1.4 of the significant accounting policies of Consolidated Financial Statements).</p> <p>Revenue is recognised when the control of the products has transferred and dispatched to customer. Delivery occurs when the product has been dispatched to the specific location and the risk of obsolescence / loss has been transferred and there is no unfulfilled obligation that could affect the buyer's acceptance of the product as per the terms of the contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.</p> <p>Revenue is recognised based on the price and as per terms specified in the contracts. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.</p> <p>There is a significant risk of misstatement due to risk related to inappropriate recognition of the revenue and hence this was determined to be a key audit matter.</p>	<p>Our audit procedures to assess the appropriateness of revenue recognized included:</p> <ul style="list-style-type: none"> Obtaining an understanding of and assessing the design, implementation and operating effectiveness of the Company's key internal controls over the revenue recognition process. Obtaining and inspecting, on a sample basis, individual sales transaction and traced to sales invoices, sales order and other related documents as well as credit notes issued after the year end to determine whether these were recorded appropriately. Examination of significant contracts entered into close to year end to ensure revenue recognition is made in the correct period. <p>Our testing as described above showed that revenue has been recorded in accordance with the terms of applicable contracts and accounting policy in this area.</p>

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of the preparation of the consolidated financial statement by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is also responsible for overseeing the company's financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicated with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- Due to COVID-19 pandemic and the consequential nationwide lockdown announced by the Central and State Government including the travel restrictions, maintenance of social distancing etc., the audit team has performed the audit from remote location, on the basis of data, scan copies, documents, management estimates, assumptions, certificates and other information supplied electronically by the management on online platform. We have relied on Management assurance of the authenticity, completeness and accuracy of these records electronically submitted to us. Further, our attendance at the physical inventory verification done by the management was impracticable under the current lockdown restrictions imposed by the government and we have therefore, relied on the related alternative audit procedures to audit the existence of inventory as per the guidance provided in SA 501 "Audit Evidence - Specific Consideration for Selected Items" and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on Consolidated Financial Statements.

Our opinion is not modified in respect of this matter.

- We did not audit the financial statements and other financial information in respect of its associate (Meghalaya Power Limited) whose Ind AS financial statement reflect total assets of ₹ 23,360.99 Lakhs as at March 31, 2020, total revenues of

₹ 12,232.80 Lakhs total net profit of ₹ 359.37 Lakhs and total comprehensive income of ₹ 358.20 Lakhs for the year ended on that date, as considered in the consolidated financial statement. The above financial information are before giving effect to any consolidation adjustments. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this Associate, and our report in terms of sub sections (3) of Section 143 of the Act, in so far as it relates to the these associates, is based solely on the reports of the other auditors.

Our opinion on the Consolidated Ind AS Financial Statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

(A) As required by Section 143(3) of the Act, we report that:

- (a) Without prejudice to the issues described under "Other matter" section, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder;
- (e) On the basis of the written representations received from the Directors of the Company as on March 31, 2020, taken on record by the Board of Directors of Company and its associate incorporated in India, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure A";
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, and based on the reports of the statutory auditors of such associates companies, incorporated in India which were not audited by us, the remuneration paid by the Group to its directors during the year is in accordance with the provisions of Section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditors Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Consolidated financial statements disclose the impact of pending litigation on the consolidated financial position of the Group.
 - ii. The Group did not have any long-term contracts

including derivative contracts for which there were any material foreseeable losses;

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its associates Companies incorporated in India during the year ended March 31, 2020.

Annexure - A to the Independent Auditors' Report of even date on the Consolidated Financial Statements of Shyam Century Ferrous Limited

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2020, we have audited the internal financial controls over financial reporting of **Shyam Century Ferrous Limited** (hereinafter referred to as "the Company") and its associate which is a company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Company and its associate company, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company and its associate, which is a company incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the

risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its associate company, which is a company incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company and its associate company, which is a company incorporated in India, have, in all material respects, read with impact of Covid- 19 stated in Emphasis of Matter paragraph in Independent Auditor's Report, an adequate internal financial controls system over financial reporting and such internal

financial controls over financial reporting were operating effectively as at 31st March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to associate, which is company incorporated in India, is based on the

corresponding reports of the auditors of such associate companies incorporated in India. Our Opinion is not modified in respect of above matters.

Notes to Consolidated Financial Statements for the year ended 31st March, 2020

Corporate Information

Shyam Century Ferrous Limited (referred herein after as "Group") is a public company domiciled in India and incorporated on 12.04.2011 under the provisions of the Companies Act, 1956. Its shares are listed on National Stock Exchange and Bombay Stock Exchange in India. The Company is engaged in manufacturing of Ferro Alloys and generation of Power. The manufacturing unit is located at Byrnihat, Meghalaya. The company is selling its product across India.

1. Accounting Policies

1.1 Basis of Preparation

(i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

The Company has adopted all the applicable Ind AS standards effective 1st April, 2017 and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with April, 2017 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

The accounting policies are consistently followed by the Company and changes in accounting policy are separately disclosed.

(ii) Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following:

- defined benefit plans – plan assets measured at fair value
- certain financial assets that are measured at fair value

(iii) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

(iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

1.2 Principles of equity accounting – Associate

Associates are all entities over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see below), after initially being recognised at cost.

Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described below.

1.3 Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities,

Notes to Consolidated Financial Statements (Contd.)

at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, actual results could differ from these estimates.

1.4 Revenue Recognition

Sales are recognised when control of the products has transferred, domestic sales are accounted when the products are dispatched to the customers and export sales are accounted on the basis of bill of export/bill of lading. Delivery occurs when the product has been dispatched to the specific location and the risk of obsolescence / loss has been transferred and there is no unfulfilled obligation that could affect the buyer's acceptance of the product as per the terms of the contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.

Revenue is recognised based on the price specified in the contract, net of discounts/claims. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

A receivable is recognised when the goods are dispatched as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

1.5 Property, plant and equipment

Property, plant and equipment are stated at cost or revalued amount, as the case may be, less accumulated depreciation / amortization and impairment loss, if any, except freehold land which is carried at cost. Cost comprises the purchase price inclusive of duties, taxes, incidental expenses and erection / commissioning expenses etc. up to the date, the asset is ready for its intended use.

Capital Work in Progress

Capital work in Progress is carried at cost comprising direct cost and includes any directly attributable cost incurred during construction period.

Expenditure during construction period

In case of new projects and substantial expansion of existing units, expenditure incurred including trial production expenses net of revenue earned and attributable interest and financing cost, prior to commencement of commercial production are capitalized.

Depreciation

Depreciation on property, plant and equipment is provided on written down value method in accordance with the provisions of Schedule II to the Companies Act, 2013 and considering the useful lives for computing depreciation specified in Part 'C', thereof'. Depreciation is provided on components that have homogenous useful lives by using the WDV method so as to depreciate the initial cost down to the residual value over the estimated useful lives. Useful lives, components and residual amounts are reviewed annually.

In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

1.6 Inventories

Raw Materials, stores and spares are valued at lower of cost and net realizable value. However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Work in progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a part of manufacturing overheads based on normal operating capacity.

Cost of Inventories excluding finished goods and work-in-progress is computed on FIFO basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

1.7 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.8 Investments and other financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost

Notes to Consolidated Financial Statements (Contd.)

The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

Measurement

At initial recognition, the Group measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments into the following categories:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collections of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments (except subsidiary, associate and joint venture) at fair value through profit or loss. However where the Group's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss.

Impairment of financial assets

The Group measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset, or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset.

1.9 Financial liabilities

Initial recognition and measurement

The Group recognises all the financial liabilities on initial recognition at fair value minus, in the case of a financial liability not at fair value through Profit or Loss, transaction costs that are directly attributable to the acquisition or issue of the financial liability.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

All the financial liabilities are classified as subsequently measured at amortised cost, except for those measured at fair value through profit or loss.

De-recognition of financial liabilities

The Group de-recognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

Notes to Consolidated Financial Statements (Contd.)

1.10 Government Grants and subsidies

Government grants / subsidies are recognized when there is reasonable certainty that the same will be received. Revenue grants, if any granted by way of recoupment / reimbursement of any item of expenditure are recognized in the Statement of Profit and Loss by way of deduction from related item of expenses. Grants related to assets which are recognized in the Statement of Financial Position as deferred income, are recognized to the Statement of Profit and Loss on a systematic basis over the useful life of the related assets by netting off with the related expense.

1.11 Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Defined Contribution Plan

Retirement benefit in the form of Provident Fund is a defined contribution scheme and is charged to the Statement of Profit and Loss for the year when the contributions to the respective funds are due.

(iii) Defined Benefit Plan

Gratuity liability, being a defined benefit obligation, is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(iv) Other Long-term benefits

Short term compensated absences are provided for based on estimates. Long term compensated absences are provided for based on actuarial valuation which is done as per projected unit credit method at the end of each financial year.

1.12 Earnings per Share

Basic Earnings per Share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deductible preference dividend and attributable taxes) by the weighted number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit or loss for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

1.13 Borrowing Costs

Borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset is capitalized as part of cost of such asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which they are incurred. Borrowing cost includes exchange differences arising from relevant foreign currency borrowings to the extent that they are regarded as an adjustment to the interest cost.

1.14 Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1.15 Taxation

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by

Notes to Consolidated Financial Statements (Contd.)

the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The deferred tax in respect of temporary differences which originate during the tax holiday period and is likely to reverse during the tax holiday period, is not recognized to the extent income is subject to deduction during the tax holiday period as per the requirements of the Income Tax Act, 1961.

1.16 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

1.17 Cash and Cash equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash in hand, demand deposits with Banks and other short-term highly liquid investments / deposits with an original maturity of three months or less.

1.18 Provisions and Contingencies

A Provision is recognized for a present obligation as a result of past events if it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense. Liabilities which are material and whose future outcome cannot be ascertained with reasonable certainty are treated as contingent and disclosed by way of notes to the accounts. Contingent assets are also disclosed by way of notes to the accounts.

1.19 Foreign Currency Transactions and Balances

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian National Rupee (INR), which is Shyam Century Ferrous Limited's functional and presentation currency.

Transactions in foreign currencies entered into by the Group are accounted at the exchanges rates prevailing on the date of the transactions. Exchange differences arising on settlement /restatement of short-term foreign currency monetary assets and liabilities of the Group are recognized as income or expenses in the Statement of Profit and Loss. All foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income or other expenses.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

1.20 Borrowing

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the Statement of Financial Position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another

Notes to Consolidated Financial Statements (Contd.)

party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

1.21 Impairment of non-financial assets

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. An impairment loss will be recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognized impairment loss is further provided or reversed depending on changes in circumstances.

1.22 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

1.23 Intangible Asset

An intangible asset is recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the Group and the cost of the asset can be measured reliably. The depreciable amount of an intangible asset is allocated over its estimated useful life. Expenditure on purchased software and IT related expenditure are written off over a period of three years.

1.24 Lease

As a Lessee:

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are initially measured at cost. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, an estimate of costs to be incurred in dismantling and removing or restoring the underlying asset and lease payments made at or before the commencement date less any lease incentives received. After the commencement date, the Right of use assets are measured applying the Cost model. They are subsequently measured at cost, less any accumulated depreciation, adjustments for any remeasurement of the lease liabilities and impairment losses. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

As a Lessor:

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee.

Notes to Consolidated Financial Statements (Contd.)

Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. Operating lease payments are recognised as an income in the statement of profit and loss on a straight-line basis over the lease term, unless the receipt from lessee is structured to increase in line with expected general inflation and compensate for the lessor's expected inflation cost increase.

1.25 Research and Development Expenditure

Revenue expenditure is charged to the Statement of Profit and Loss and capital expenditure is added to the cost of property, plant and equipment in the year in which they are incurred.

1.26 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

Note 2 : Disclosure on Transition :

Adoption of a new accounting standard on Leases Ind AS 116

The Group has adopted Ind AS 116 'Leases' with effect from 1st April, 2019, as notified by the Ministry of Corporate Affairs (MCA) in the Companies (Indian Accounting Standard) Amendment Rules, 2019 using modified retrospective method. Accordingly, the comparatives have not been retrospectively adjusted.

On transition, the adoption of this standard resulted in recognition of Right of Use Asset of ₹ 48.32 Lakhs and lease liability of ₹ 48.32 Lakhs as at 1st April, 2019. At the year end the cumulative impact of applying this standard resulted in decrease in profit of ₹ 1.63 Lakhs, the result of which did not have any material impact on the profit before tax, profit for the year and earning per share for the year ended 31st March, 2020.

Ind AS 116 will result in an increase in cash inflows from operating activities and an decrease in cash outflows from financing activities on account of lease payments. The lease liabilities were discounted using the incremental borrowing rate of the company as at 1st April, 2019. The Weighted Average incremental borrowing rate applied to lease liability as at 1st April, 2019 is 9.00%.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. In statement of profit and loss for the current year, the nature of expenses in respect of operating leases has changed from lease rent in previous year to depreciation cost for the ROU asset and finance cost for interest accrued on lease liability.

In the context of initial application, the company has exercised the option not to apply the new recognition requirements to short-term leases and to leases of low-value asset.

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2020 :

Particulars	(₹ in Lakhs)
	Amount
Balance as at April 1, 2019	-
Recognition on account of adoption of Ind AS 116	48.32
Additions	-
Depreciation	4.03
Balance as at March 31, 2020	44.30

The depreciation expense of ₹ 4.03 Lakhs on ROU assets is included under depreciation and amortization expenses in the Statement of Profit and Loss.

The following is the movement in lease liabilities during the year ended March 31, 2020 :

Particulars	(₹ in Lakhs)
	Amount
Balance as at April 1, 2019	-
Recognition on account of adoption of Ind AS 116	48.32
Interest expense during the period	4.35
Payment of lease liabilities	6.75
Balance as at March 31, 2020	45.93

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Withdrawal rate (-/+ 1%)	56.40	55.67	72.15	70.53

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Note: 38 - Employees benefit obligations (Contd.)

(vi) Risk exposure

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest risk:

A decrease in the interest rate on plan assets will increase the plan liability.

Life expectancy:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Salary growth risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan liability.

(vii) Defined benefit liability and employer contributions

Expected contributions to post-employment benefits plans for the year ending 31st March 2021 are ₹ 19.97 Lakhs.

The weighted average duration of the defined benefit obligation is 5.29 years (31st March 2019: 4.92 years). The expected maturity analysis of undiscounted gratuity is as follows:

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments is determined using discounted cash flow analysis.

(iii) Fair value of financial assets and liabilities measured at amortised cost

(₹ in Lakhs)

Particulars	31 March, 2020		31 March, 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Security Deposits	56.21	56.21	55.71	55.71
Total financial assets	56.21	56.21	55.71	55.71
Financial liabilities				
Borrowings	190.55	190.55	258.72	258.72
Lease Liability	43.31	43.31	-	-
Total financial liabilities	233.86	233.86	258.72	258.72

The carrying amounts of all other financial assets and financial liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk. The carrying amounts of other borrowings with floating rate of interest are considered to be close to the fair value.

The fair values for financial instruments were calculated based on cash flows discounted using current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions see (ii) above.

Notes to Consolidated Financial Statements (Contd.)

Note: 41 - Capital management

(a) Risk management

The company's objectives when managing capital are to:

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and
- maintain an optimal capital structure to reduce the cost of capital

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares .

The amount mentioned under total equity in balance sheet is considered as Capital.

Note: 42 - Financial risk management

The Company's activities are exposed to a variety of financial risks: credit risk, liquidity risk and market risk (i.e. foreign currency risk, interest rate risk and price risk).

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets measured at amortised cost.	Aging analysis	Diversification of customer base
Liquidity risk	Financial liabilities that are settled by delivering cash or another financial asset.	Cash flow forecasts	Projecting cash flows and considering the level of liquid assets necessary to meet the liabilities
Market risk – interest rate	Long-term borrowings at fixed rates	Sensitivity analysis	Portfolio of loan contains fixed interest loans from financial institutions

(A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally carrying 30 days credit terms. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically. The ageing of trade receivables as of balance sheet date is given below. The age analysis have been considered from the due date:

Particulars	(₹ in Lakhs)				
	Not due	Less than 6 months	6 months - 1 year	> 1 year	Total
Trade receivable as on 31st March, 2020	925.59	2,777.25	33.16	108.12	3,844.12
Trade receivable as on 31st March, 2019	1,473.79	1,189.59	4.28	124.01	2,791.67

ii) Financial instruments and deposits

Credit risk from balances with banks and financial institutions is managed by the Company's finance department. For banks and financial institutions, only high rated banks/institutions are accepted.

Financial assets are considered to be of good quality and there is no significant credit risk.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31st March 2020 and 31st March 2019 is the carrying amounts as illustrated in Note No. 40.

(B) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the underlying business, the Company maintains sufficient cash and liquid investments available to meet its obligation.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The management also considers the cash flows projection and level of liquid assets necessary to meet these on a regular basis. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

Notes to Consolidated Financial Statements (Contd.)

Note: 42 - Financial risk management (Contd.)

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

(₹ in Lakhs)

Particulars	31 March, 2020	31 March, 2019
Floating Rate		
- Expiring within one year (bank overdraft and other facilities)	2,995.15	2,918.69
	2,995.15	2,918.69

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time in INR.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

(C) Market risk

(i) Foreign currency risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Further foreign exchange risk also arises from future cash flow against foreign currency loan. The risk is measured through a forecast of highly probable foreign currency cash flows.

Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period expressed in ₹ are as follows:-

(₹ in Lakhs)

Particulars	31 March, 2020	31 March, 2019
Financial assets	-	-
Financial liabilities	-	10.38
Net exposure to foreign currency risk	-	10.38

Sensitivity

The sensitivity of profit and loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

* Holding all other variables constant

Notes to Consolidated Financial Statements (Contd.)

Note: 42 - Financial risk management (Contd.)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During 31st March 2020, the Company's borrowings at variable rate were mainly denominated in INR.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(a) Interest rate risk exposure

On Financial Liabilities:

The exposure of the Company's financial liabilities to interest rate risk is as follows:

(₹ in Lakhs)

Particulars	31 March, 2020	31 March, 2019
Variable rate borrowings	4.85	81.31
Fixed rate borrowings	190.55	258.72
Total borrowings	195.40	340.03

(b) Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates as below:

(₹ in Lakhs)

Particulars	Impact on profit before tax	
	31 March, 2020	31 March, 2019
Interest expense rates – increase by 50 basis points (2018: 50 bps)*	(0.02)	(0.41)
Interest expense rates – decrease by 50 basis points (2018: 50 bps)*	0.02	0.41

The Company is preferring an appeal before the appropriate Forum against the above judgement. It is to be noted that misuse of benefit granted by some unscrupulous assessee cannot be made a ground to deny the benefits to genuine manufacturers and cannot be termed as in public interest. It can also not be said that the subsequent notifications are only clarificatory in nature and are not hit by doctrine of promissory estoppel as denial of promised benefits will hurt the genuine manufacturer who have changed their position on the basis of promise by the state. Based on the legal advice obtained by the Company from External Counsel as well as its own assessment there is every likelihood of reversal of the said judgement and appeal will be allowed and hence no reversal of income amounting to ₹ 1,720.30 Lakhs which was previously booked in the books of accounts is required.

Notes to Consolidated Financial Statements (Contd.)

Note: 45 - Contingent Liabilities & Commitments (Contd.)

- (b) On the basis of the direction of the High Court of Meghalaya dated 30.08.2018 following the decision of the Supreme Court dated 10.11.2017 passed in SRD Nutrients Pvt. Ltd. Vs. Commissioner of Central Excise, Guwahati, Company has received a refund of Education Cess and Secondary & Higher Education Cess amounting to ₹ 112.04 Lakhs in previous years. However, the Apex court vide its order dated 06.12.2019 have taken a contrary view in the matter of M/S Unicorn Industries Vs Union of India and Others. Based on the later judgement a demand letter was raised by the department to refund back the amount granted. As the order dated 30.08.2018, has attained its finality and the refund was granted accordingly, the Company has preferred an appeal before the appropriate Forum against the above demand letter. Meghalaya High Court has stayed the said demand vide its order dated 16.06.2020. Based on the legal advice obtained by the Company from External Counsel as well as its own assessment there is every likelihood that the said demand will be quashed and therefore no provision have been taken in the books of account.
- (c) In respect of demand notice dated 19.02.2020 received by the Company from Director of Mineral Resources, Meghalaya, for payment of royalty, MEPRF, VAT/GST for ₹ 1,738.99 Lakhs in pursuance to the National Green Tribunal (NGT) order dated 17.01.2020 passed in O.A. No. 110(TCH)/2012 for alleged illegal coal procurement. By passing the said order NGT has accepted the Recommendation of the 5th Interim Report of the Independent Committee set up by NGT, which has suggested imposition of penalty on Cement Companies and Thermal Power Plants in Meghalaya.

The Company has not purchased any illegal coal and has complied with all disclosure requirements of the various Government Departments. The Report of NGT Committee has been founded on the basis of assumptions and views of the Committee and not on hard facts. Further to note that the Company has neither been issued a show-cause nor any opportunity of being heard was given to the Company before submitting the Interim reports by the Independent Committee to NGT. Even NGT has not served any notice on the Company before passing the impugned order dated 17.01.2020 which is clear violation of principles of natural justice.

The Company backed by the legal opinions, believes that it has a good case in the matter as the said order was issued based on certain hypothetical assumptions and views and not on hard facts. No opportunity of being heard was provided to the Company either by NGT committee or by NGT itself which passed order without going into the merits & facts and accepted the recommendations of 5th Internal Report. Therefore, there is every likelihood of the Demand Notice being set aside. The Company is preferring an appeal before appropriate forum and accordingly, no provisions has been made in the accounts.
